

# PMaaS.AI – Project Management as a Service, Reinvented with AI

## What is PMaaS.AI?

PMaaS.AI combines traditional project management with AI innovation and allocates PMs with AI knowledge and experience. Delivered by Profexec Services, it enables faster, smarter delivery through expert PMs and AI-powered tools—while you retain full control.

## Why Now?

Today's projects face rising complexity, real-time data demands, tighter deadlines, and talent shortages. PMaaS.AI bridges these gaps—enhancing delivery speed, governance, and risk control with AI-driven support.

## What We Offer

1

### AI Project Management

PMs experienced in AI systems: LLMs, predictive analytics, RAG, chatbots and other systems.

2

### AI-Enhanced Delivery

Working together with the AI system of the customer or using known solutions such as ChatGPT, Copilot, Fireflies.ai & more to improve work efficiency.

3

### AI Advisory

Strategy, use case review, governance & readiness.

## Why Profexec?

- » **End-to-end service** – Staffing, governance, training, reporting
- » **Fast and flexible** – Scale your PM capacity in days, not months
