

# **Profexec PMaaS for multinational companies**

Profexec Services

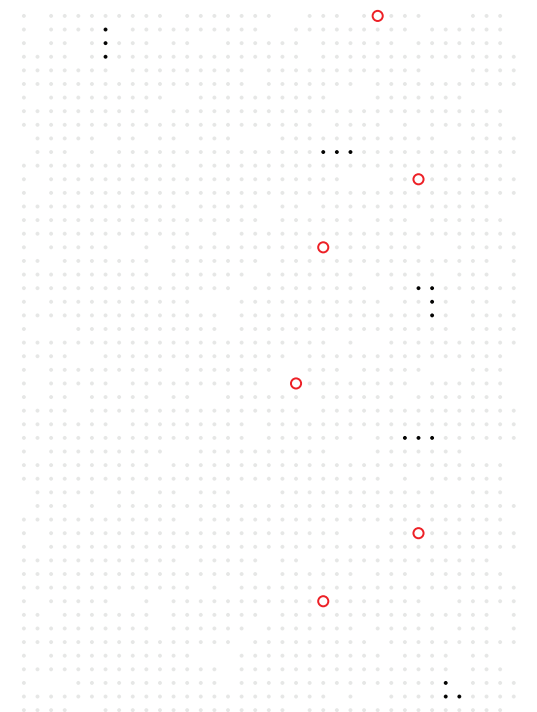

Profexec Services

# PMaaS Introduction

## What is PMaaS?

PMaaS (Project Management as a Service) is a scalable, on-demand project leadership solution that combines certified professionals, proven methodologies, and governance frameworks—without the cost and rigidity of permanent headcount.

At Profexec Services, we enable multinational companies to enhance their project delivery capabilities while retaining full control over scope, quality, and outcomes. Whether supporting enterprise-wide change or supplementing internal teams, PMaaS bridges the gap between strategic ambition and operational execution.

# PMaaS Introduction

## Why Multinational Companies choose PMaaS?

In a global business environment where agility, coordination, and execution are critical, project management often becomes a bottleneck due to limited internal bandwidth, skills gaps, or geographic dispersion. PMaaS solves this by offering:

- » Instant access to expert project leaders
- » Seamless support across time zones, geographies, and cultures
- » Rapid onboarding for high-impact, time-sensitive initiatives
- » End-to-end governance and structured delivery
- » Coverage for key strategic domains: ERP, M&A, compliance, transformation, digitalization, security
- » Proven expertise across hybrid, agile, and waterfall methodologies
- » Scalable resource models for both short- and long-term needs

## Why Profexec Services?

More Than Staffing. We Deliver Project Leadership.

Our services combine deep delivery experience with certified professionals, tailored PM frameworks, and industry-specific expertise.

Here's what makes Profexec different:

- ✓ **Full-service PM specialization** – Execution, training, PMO development, and organizational change support
- ✓ **PMI® Authorized Training Partner** – Upskilling and certifying our own PMs to international standards (PMP®, ACP®, PBA®)
- ✓ **Segmented by project type** – Tailored support for ERP, regulatory, transformation, digital, security and infrastructure projects
- ✓ **Flexible delivery** – Onsite or remote, local or global, full-time or part-time
- ✓ **Methodology fluency** – Agile (Scrum, SAFe), Waterfall, and Hybrid approaches
- ✓ **SLA-backed service** – Measurable performance, accountability, and transparency
- ✓ **Scalability on demand** – Expand or downsize project teams as business needs evolve

- ✓ **Rapid deployment** – Profiles within 3–5 days, onboarding typically within 1 week
- ✓ **PMO support and governance templates** – Based on industry standards and best practices
- ✓ **Certified professionals** – Project managers vetted for domain knowledge, leadership, and cultural fit
- ✓ **Sector-specific references** – Pharma, Oil & Energy, Telecom, Banking, Manufacturing, SSCs

# PMaaS Introduction

## Experience Across Key Industries

We support multinational organizations in delivering projects of all sizes and complexities, including:

- 1 ERP rollouts and digital core transformations (SAP, Oracle)
- 2 M&A and post-merger integration
- 3 Regulatory and compliance programs
- 4 IT infrastructure transitions and cloud migrations
- 5 Product and service launches
- 6 BI, data, and analytics transformations (e.g., Power BI, SAP Analytics Cloud)
- 7 Agile delivery coaching and PMO maturity development
- 8 Business process outsourcing and shared services transitions

## Community & Thought Leadership

Profexec is a recognized leader in the project management field in Central and Eastern Europe:

- » Founders of the [Hungarian PMO Klub](#), an exclusive network of 500+ senior PM, PMO, PPM professionals
- » Strategic content partner to [ABSL Hungary](#), delivering workshops and insights to SSC leaders
- » Running [Podcasts](#) in the field of project management
- » Contributors to **PMI® standards and knowledge sharing**
